

CONFERENCE VISUALS

Powered by

Are you looking for a tool that will make your conference calls more interactive and engaging? Need a way to bring the power of graphic presentations delivered via the Internet to any size meeting you may host? Conference Visuals is the answer.

Conference Visuals provides a flexible web conferencing platform that can be optimized with the features that best fit the type of meeting you're conducting. From small, collaborative working sessions to large online presentations, Conference Visuals makes it easy for you to present and for your participants to benefit from the web conference no matter what size the group.

▶ HERE ARE A FEW WAYS TO PUT CONFERENCE VISUALS TO WORK

- Host speaker events and web seminars to educate your customers
- Launch products to the press, employees and clients in a virtual forum
- Conduct company-wide events to report on corporate issues
- Share benefits options to new hires to get them quickly up to speed
- Conduct collaborative status meetings with your project team and share the latest developments
- Present proposals to new prospects without traveling to their locations

▶ CONFERENCE VISUALS FEATURES

Schedule Meetings and Invite Participants Send invitations automatically using your own email application. Attendees can add conference details and information to their calendars with one click.

Conference Visuals Custom Slides Add Conference Visuals Text, Whiteboard, Web, Poll, Snapshot and Sharing slides to your PowerPoint™ slide deck. Conference Visuals custom slides add functionality and collaborative options to your standard slide presentation. The custom slide titles will appear in the presentation index for easy transition. You can even reorder or rename your slides right from the Conference Visuals interface.

Live Q&A Audience members can ask questions and get answers without interrupting the presenter. While one person is presenting, another person or numerous people can serve as co-presenters and immediately respond to questions. Answers can be provided directly to the questioner (Private Reply) or shared with the entire audience (Post to All).

Seating Chart and Mood Indicators Audience members can change their seat colors to visually communicate their level of understanding or desired pace without interrupting your session. You can adjust your delivery in response to the audience's needs. Plus, presenters always know who is in a session by viewing the seating chart.

Print to PDF Conference Visuals allows Presenters and Participants to save and print the presentation content locally. There's no waiting to distribute pertinent conference content – everyone has instant access to the materials that are being discussed.

Powerful Reporting Tools Access to detailed, real-time usage reports. See who attended your conference and for how long. View statistics on each of your recordings to measure how they are being used and by whom. Reports are exportable in standard CSV format so they can be used with other systems.

Conference Visuals Recording Record and save a copy of your session. Capture everything in your conference including the live demonstrations, annotations, notes, visuals and even live web slides. Access controls allow you to choose open, limited or secure access to your recordings. You can even view reports to see recording usage trends. Please note that there is a fee to use the Recording tool, but once your web conference is recorded, you can access the playback as often as you like for no additional charge.
